

FORTVNY[®]
Studio 1907

FORTVNY®

The 1907 Studio collection showcases new finishes of the famous floor lamp designed by Mariano Fortuny in 1907. Today considered a contemporary icon, the lamp was created with the aim of revolutionising theatrical lighting.

Whilst its base is inspired by the legs of a camera tripod, it is the adjustable lampshade that provides an indirect and diffused light that is undoubtedly perfect for the stage.

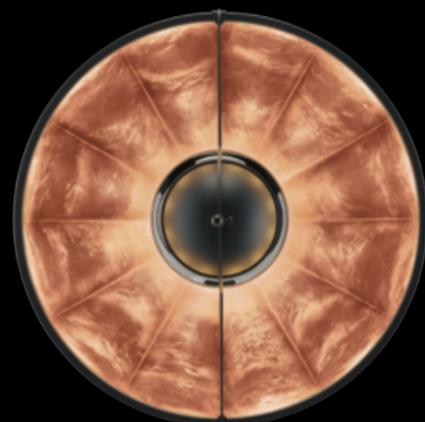

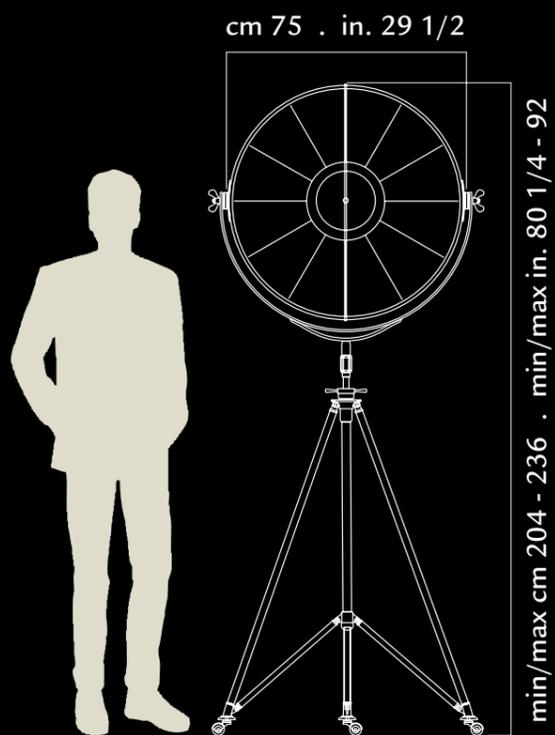

The outcome is a product that is characterised by a modern aesthetic, a statement piece that becomes the focal point of any interior space and is selected by the best architects and designers world wide.
